Matalascañas is a village belonging to Almonte, located very close to Doñana National Park and about 15 kms far from the Palacio de Doñana where we will be hosting. It is a very touristic area for summer holidays. There are many services and infrastructures, and a fantastic beach with golden and fine sand. We can find there a multitude of restaurants specialized mainly in fresh fish and seafood from the Gulf of Cadiz. We will organize and made reservation in some of these restaurants for our dinner on Wednesday.

Location of Matalascañas in relation to Doñana National Park
